1 - INTRODUCTION

Customizing the Photobooth is simple, you only have to follow the steps that we show in this manual and you will be able to customize:

- **Decals:** You can customize with decals all over the outside of the PhotoBooth.
- **Print Photo:** Can include custom frames, collage with custom backgrounds, logo and lateral text.
- **Monitor:** Can display a Welcome and Bye screen, and custom shots with photos or advertising.
- **Music:** You can customize the music from your PhotoBooth.
- **The Cloud:** Allows you to fully customize an event where photos taken will be uploaded to save or share them on social networks. The Cloud can be customized with a background, a banner that links to the website you want, and the editable title of the event.
- **The LED screen (Outside):** Can display photos, advertising videos, motion graphics, and customized videos.

2- CUSTOMIZE THE DECALS

The DECALS are stickers that you can place in and out of your DC PhotoBooth to customize it. Depending on the type of PB can paste them to the outside and inside or only outside.

See an example below.

SAMPLE

To check out our Decals catalog you must scan the following QR code:

3-CUSTOMIZE THE PRINT PHOTO

3.1 LOGO

You can add a corporate logo in the photos to promote an event or advertise any company. The logo will be printed on the fourth photo of the strip.

See an example below.

SAMPLE

Logo Technical Details:

- Name:** logo
- Size:** width: 1024 pixels
height: 768 pixels
- Resolution:** 300dpi
- Extension:** JPG
- Color mode:** RGB

if you need more information about how to save the logo properly, scan this QR code and watch the video.

STRUCTURE

3.2 FRAMES

Frames are designs that appear overprinted in photos. They can be customized with any motif, even adding the company logo.

These frames can be thematic, according to the different holidays or events that are attended.

See an example below.

SAMPLE

Frames Technical Details:

Name: To name the different custom frames you must assemble them in groups of 4, as follows:

- Group1:1a, 1b, 1c, 1d.
- Group2: 2a, 2b, 2c, 2d
- ...

Size: width: 1280 pixels
height: 960 pixels

Resolution: 300dpi

Extension: PNG

color mode: RGB

It's very important to save the file of the frames only in PNG extension.

Create your own customized frame. Inside of the blank area is where the camera will capture the image, and your customized frame will surround the image.

STRUCTURE

3.3 COLLAGE

There are four different customizable collage templates. In these you can add the design you want, as well as logos or exclusive images.

See an example below.

SAMPLE

Collage Technical Details:

Name: lay1, lay2, lay3, lay4.
Size: width: 2044 pixels
 height: 1416 pixels
Resolution: 300dpi
Extension: PNG
color mode: RGB

It's very important to save the file of the collage only in PNG extension and hold the original name of the template.

Create your own customized collage. Inside of the **blank area** is where the camera will capture the image, and your customized collage will surround the image.

WHERE CAN I FIND THE COLLAGE TEMPLATES?

1 Log in www.myphotocode.com

2 HOME

Click to download templates

3 YOU GET FOUR DIFFERENT TEMPLATES

Collage Technical Details:

- 1** lay1
Size: 2044x1416
Resolution: 300dpi
Extension: png
Color mode: RGB
- 2** lay2
Size: 2044x1416
Resolution: 300dpi
Extension: png
Color mode: RGB
- 3** lay2
Size: 2044x1416
Resolution: 300dpi
Extension: png
Color mode: RGB
- 4** lay2
Size: 2044x1416
Resolution: 300dpi
Extension: png
Color mode: RGB

4 YOU CAN ADD CUSTOM DESIGN TO THE TEMPLATES

STRUCTURE

3.4 TEXT

The text you decide will appear printed on the side of the photos. Here you can add the name of the event or simply a thank you message.

See an example below.

SAMPLE

Date:18-11-2014 | Digital-centre.com | QR-Photo | Share Secure
go to MyPhotoCode.com and enter this code AMEG23596Z

Text Technical Details:

Name: Text
Extension: txt

SAMPLE

Date: 18-11-2014 ** go to MyPhotoCode.com and enter this code AMEG2KELOB

Size: width: 1024 pixels
height: 768 pixels

Resolution: 72dpi

Extension: JPG

Color mode: RGB

STRUCTURE

The names of the images must be: 1.jpg,2.jpg,3.jpg

4.5 CUSTOM SHOTS

Custom shots are images (pre-made) that are displayed on the screen during the event. An example is in a wedding where the bride wants to show images of her and her husband when they met; a company wants to promote their brand or its products with images; or you want to advertise other brands. You can put as many pictures as you want.

See an example below.

SAMPLE

Custom shots Technical Details:

- Name:** 1,2,3,4,...
- Size:** width: 1024 pixels
height: 768 pixels
- Resolution:** 72dpi
- Extension:** JPG
- Color mode:** RGB

STRUCTURE

The names of the images must be: 1.jpg,2.jpg,3.jpg...

4.6 HEADER

It is a customizable image that appears on the top screen (1st screen) during the game. You can put your logo or any image that you want.

See an example below.

- **PhotoBooth with 4 screens**

SAMPLE

1.jpg

Header Technical Details:

Name: 1
Size: width: 1024 pixels
 height: 768 pixels
Resolution: 72dpi
Extension: JPG
Color mode: RGB

STRUCTURE

We must save the image as shown above. If no image is stored none will appear during the game on the top screen. You can not turn on and off using the Setup menu.

5-CUSTOMIZE THE MUSIC

Your Photobooth can also play music.

This option allows you to customize the music from the Photo Booth with personalized music from the location, or favorite music from the Bride and Groom (wedding or celebrations). You can Upload any song to the PhotoBooth, the only thing you need to do is change the song's name to "BGmusic" and save the file into the "PhotoldUpload" folder.

Music Technical Details:

Name: BGmusic
Size: 5Mb (maximum)
Extension: MP3

BGmusic	.mp3
Name	Extension

STRUCTURE

6-CUSTOMIZE THE CLOUD

The Cloud is a virtual space where all photos and videos are saved during an event. In this space the users can view all captured material during the event and they can share via email and social networks (Facebook and Twitter), as well as having the ability to download digital files on any device.

This space allows to:

- Put a **background** with a color and personal design.
- Place a **banner** (with a message of thanks or photos) to link to any website you wish.
- Edit a **title** and date for the event.
- With an **email design** you can type the text you want to appear in the E-mail when your costumers send their photos via E-mail.

6.1 BACKGROUND

The background of the event may include a pattern with a logo that identifies the event. We recommend watermarks or soft designs that let you see the elements of the page.

See an example below.

SAMPLE

Background Technical Details:

Name: Background
Size: width: 1400 pixels
 height: 1150 pixels
Resolution: 72dpi
Extension: JPG
Color mode: RGB

It's very important to save the file of the Background only in JPG extension.

Background .jpg
 Name Extension

6.2 BANNER

The banner is a very attractive tool that serves to promote your business. This advertising banner is animated and interactive. It allows you to link to the website that you decide.

All users who access the event to share the photos by social networks or download them on their computer will be able to see the customized banner. You can also change the destination URL by clicking the banner.

See an example below.

SAMPLE

Banner Technical Details:

- Name:** Banner
- Size:** width: 500 pixels
height: 150 pixels
- Resolution:** 72dpi
- Extension:** GIF
- Color mode:** RGB

It's very important to save the file of the Banner only in GIF extension.

6.3 TITLE

The event title is fully customizable to describe this space.

See an example below.

SAMPLE

6.4 EMAIL DESIGN

You can customize the email with the information that you think is the most appropriate. Reading QR photo taken at DC PhotoBooth, you can share in networks or by email. You can customize the information of the email that you receive with the photo taken in a DC PhotoBooth.

See an example below.

It allows to customize patron's E- Mails when they share their photos through an E-Mail.

SAMPLE

The screenshot shows the 'Email Design' configuration page. The top navigation bar includes 'Info', 'Cloud', 'Screen', 'Print Photos', 'Photos & Videos', 'Emails', and 'Email Design' (highlighted with a red box). The left sidebar has 'Home', 'My Profile', 'PhotoBooths', 'Events' (highlighted with a red box and an arrow), 'Emails', and 'Alerts & Errors'. The main content area is titled 'Shared E-mails' and contains three text input fields: 'Subject E-mail' (with the text 'Hey, take a look at this #PoVW that I took at a DC Photobooth.'), 'Text 1 (Header E-mail):' (with 'Check this out! I took this #PoVW at a DC Photobooth'), and 'Text 2 (Footer E-mail):' (with 'Come visit our DC Photobooth.'). To the right is a preview window showing the email layout, with arrows indicating the mapping from the input fields to the preview elements.

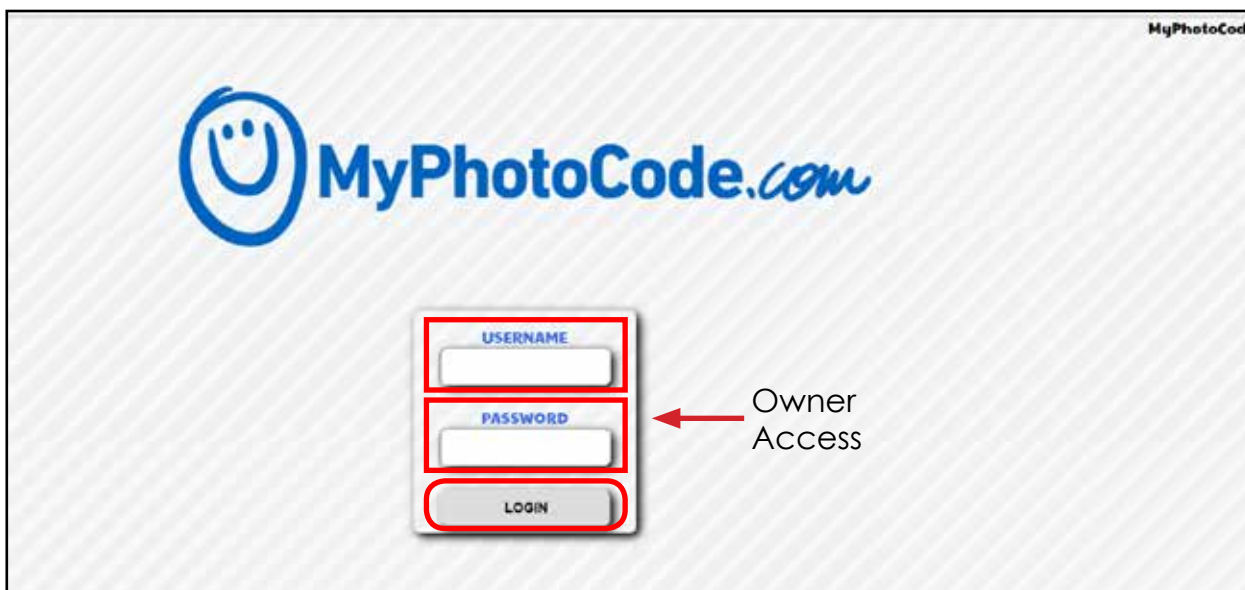

This is a detailed view of the email preview. The subject line is 'Subject: Hey, take a look at this photo that I took at a DC Photobooth'. Below it is 'TEXT 1: Check this out! I took this Photo at a DC Photobooth'. The main body of the email contains a vertical gallery of three photos of a man, followed by a DC logo. At the bottom, 'TEXT 2: Come visit our DC Photobooth' is displayed. Red boxes highlight the subject line, the first text block, the photo gallery, and the second text block.

6.5 CAPTURE EMAIL ADDRESSES

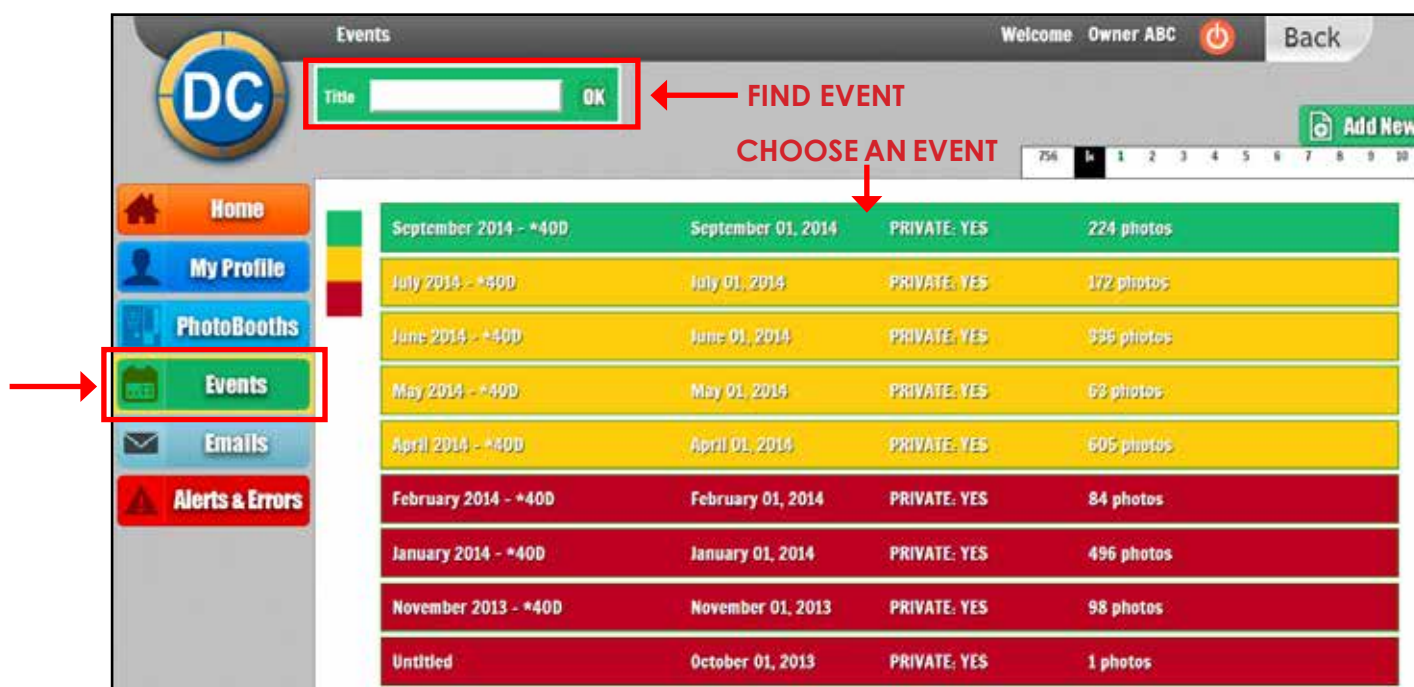

The Cloud can capture all emails from your clients to use for marketing purposes. Such as "Thanks for visiting (company name) PhotoBooth" "We look forward to seeing you again soon!" Or offer a discount just for showing the photo strip on their next visit.

If you follow the next steps you will know how this works.

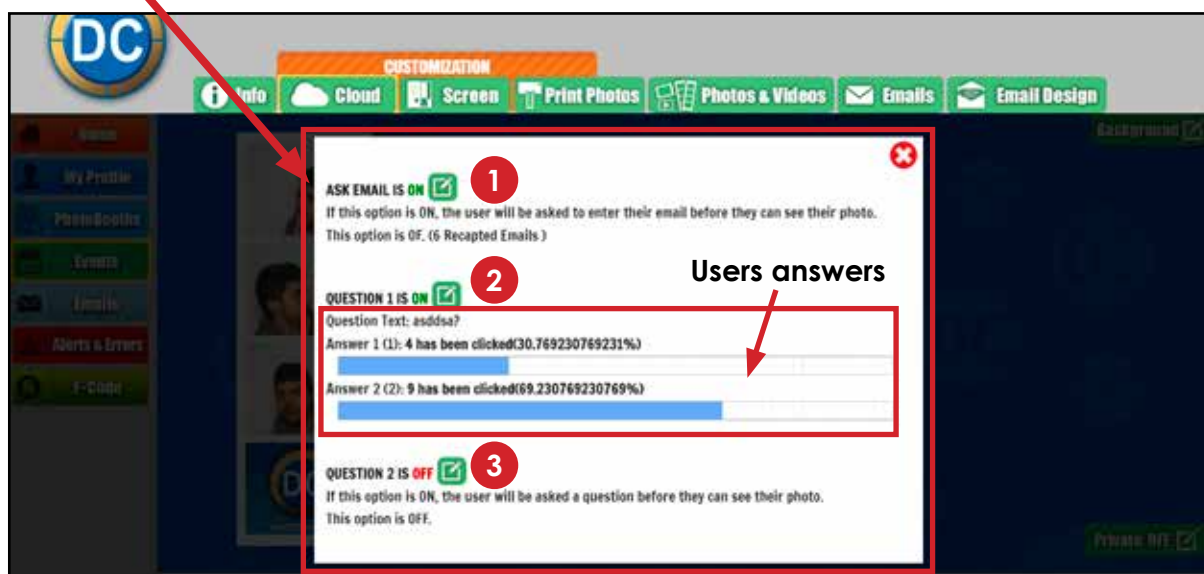

- 1 Log in to www.MyPhotoCode.com

- 2 Go to "EVENTS" and find or choose an event.

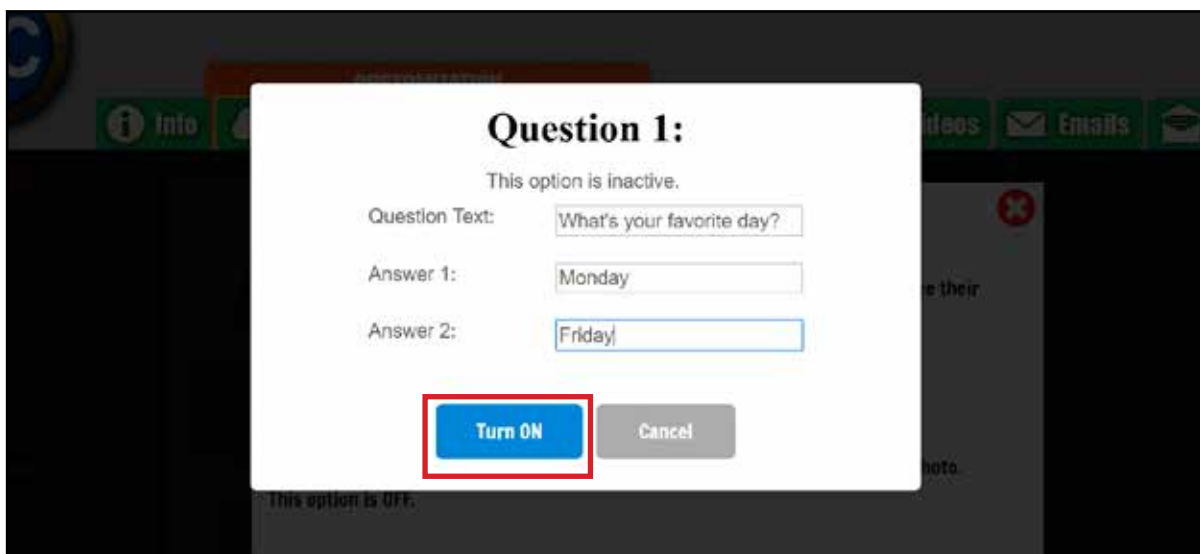

- Go to "EVENTS/CLOUD" and click on "QUESTIONS" button and follow the instructions that will appear.

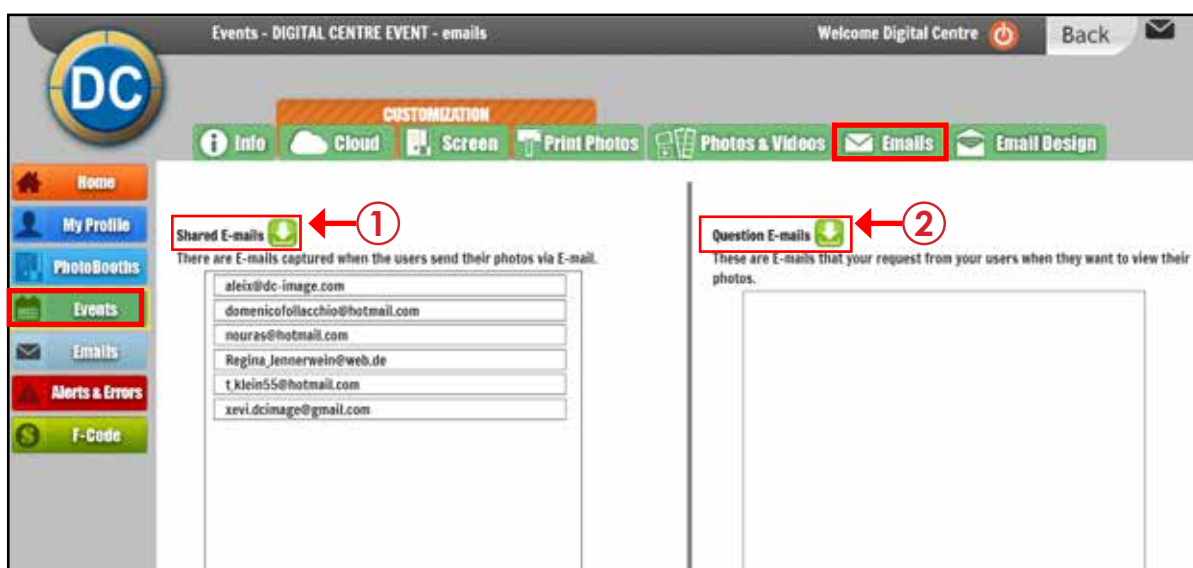

- If this option (ASK EMAIL) is "ON", the user will be asked to enter their email before they can see their photo in Myphotocode.com. If you turn OFF this option, you will not see the email contacts.
- If this option (QUESTION 1) is "ON", the user will be asked to answer a question before they can see their photo in Myphotocode.com. If you turn OFF this option, you will not see the answers of the users. If you have this feature enabled, you will know how many people prefer the first answer and how many users prefer the second option. You can better know which kind of people are your clients and use this information for a lot of marketing possibilities.

- 2 If you click on **QUESTION 1 IS OFF**  you will see this Popup where you can write the question that you want to ask the user. To activate this feature you have to click on the "turn on" button.

- 3 If this option (QUESTION 2) is "ON", the user will be asked to answer a second question before they can see their photo in Myphotocode.com. If you turn OFF this option, you will not see the answers of the users. If you have this feature enabled, you will know how many people prefer the first answer and how many users prefer the second option. You can better know which kind of people are your clients and use this information for a lot of marketing possibilities.

- 4 If you want to download the emails of users, you have to go to "EVENTS / EMAILS."

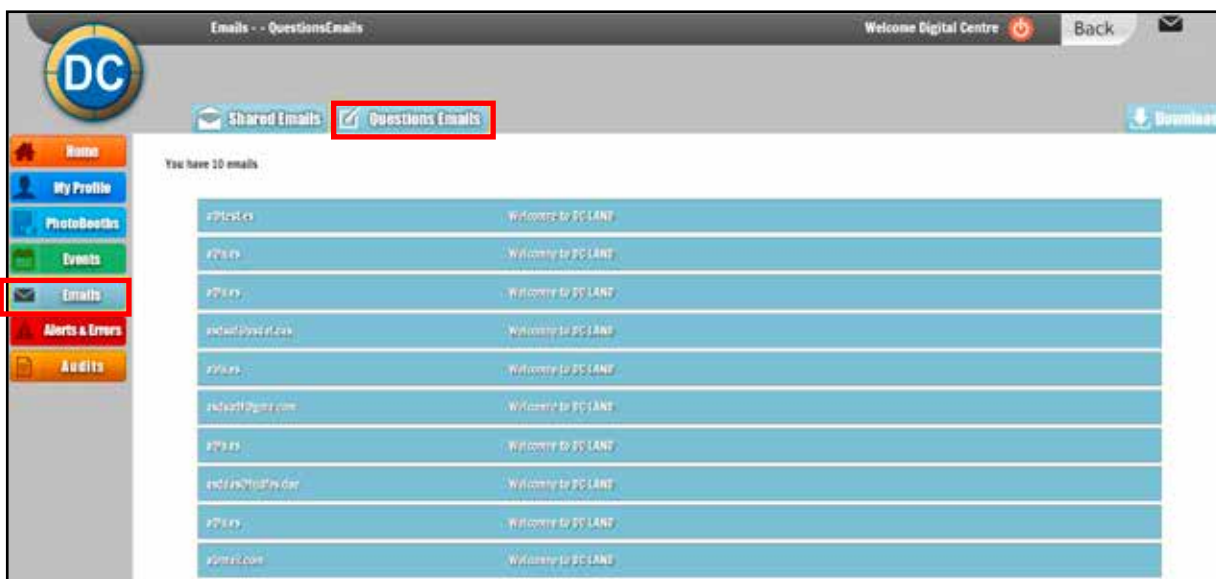

- 1 **Shared E-mails:** There are E-mails captured when the users send their photos via E-mail.
- 2 **Question E-mails:** There are E-mails that you request from your users when they want to view their photos.

- 5 You can also go to "EMAILS/SHARED EMAILS" to see and download the email contacts captured when the users send their photos via E-MAIL. You can also see the date.

In "EMAILS/QUESTION EMAILS" you can see and download the email contacts that you request from your users when they want to view their photos. You can also see the name of the event.

In this sections you will see the captured mails of all the events.

7-CUSTOMIZE THE LEDSCREEN (OUTSIDE)

The external LED Screen displays images, videos, motion graphics, text messages, adverts and the photos taken inside the PhotoBooth. It is a great promotional tool visible from hundred feet away.

7.1 LED VIDEOS

You can load as many videos as you like to be shown on the large exterior LED Screen.

See examples below.

7.1.1- PANTHER REVOLUTION

SAMPLE

LEDVideo

LEDvideos Technical Details:

Name: 1,2,3,...

Size: width: 160 pixels
height: 384 pixels

Extension: MP4

color mode: RGB

It's very important to save the file only in MP4 extension.

If you send a video that does not have the measures listed above, it will not be displayed in full screen.

1 .mp4

Name Extension

STRUCTURE

7.1.2- ECLIPSE

SAMPLE

LEDvideos Technical Details:

Name: 1,2,3,...
Size: width: 192 pixels
 height: 894 pixels
Extension: MP4
color mode: RGB

It's very important to save the file only in MP4 extension.

If you send a video that does not have the measures listed above, it will not be displayed in full screen.

This video is divided in two parts:
 - The 1 (red color): must be rotated upwards, the size is 192x384 px.
 - The 2 (blue color): normal position, the size is 192x512 px.

STRUCTURE

7.2 LED CUSTOM SHOTS

The LED Custom Shots are images (pre-made) that are displayed on the large outdoor LED screen during the event. For example a company that wants to promote its brand or its products with images or else decides to cede the advertising space to other brands.

See an example below.

SAMPLE

LEDcustomshots Technical Details:

Name: 1,2,3...
Size: width: 1024 pixels
 height: 768 pixels
Resolution: 72dpi
Extension: JPG
Color mode: RGB

It's very important to save the file of the LEDCustomShot only in JPG extension.

The imatges will be randomly displayed.

STRUCTURE

The names of the images must be: 1.jpg,2.jpg,3.jpg...

8.1-GENERAL STRUCTURE

9-HOW TO UPLOAD THE CUSTOMIZATION

9.1-UPLOAD TO THE PHOTOBOOTH

Insert the usb into the appropriate PC slot.

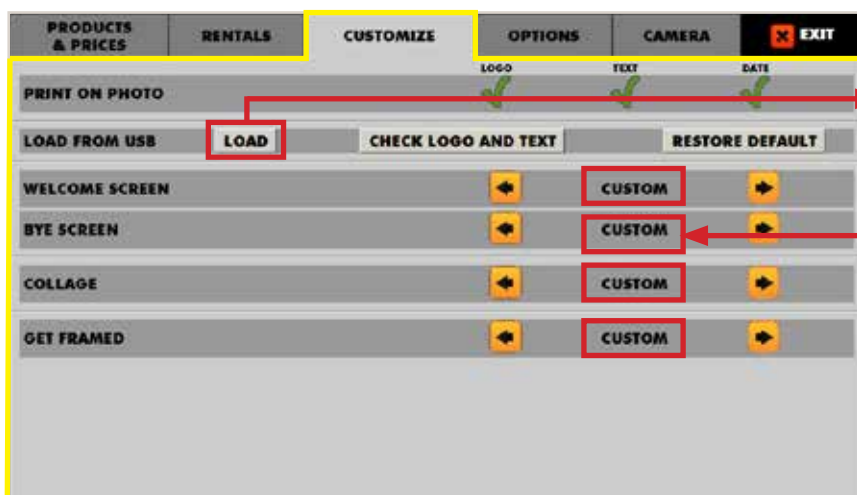

MENU (Yellow Button): It enters setup Menu and allows options such as pricing, logos, camera adjustments, and features to be changed.

If you push the yellow button (MENU), the screen inside the PhotoBooth shows the following Setup menu:

Service control panel

This set up menu appears on your inside screen.

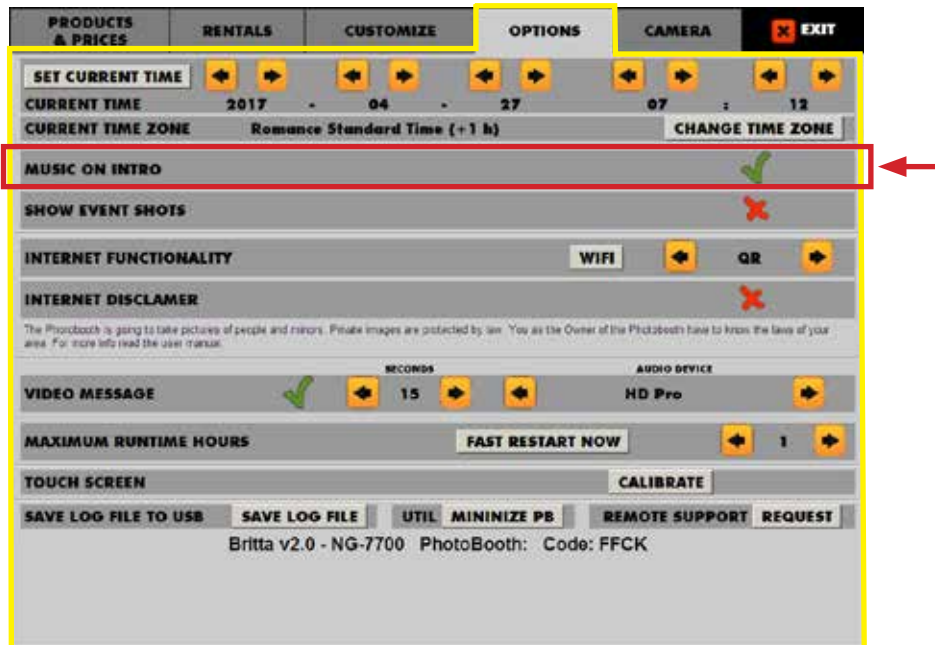

Load

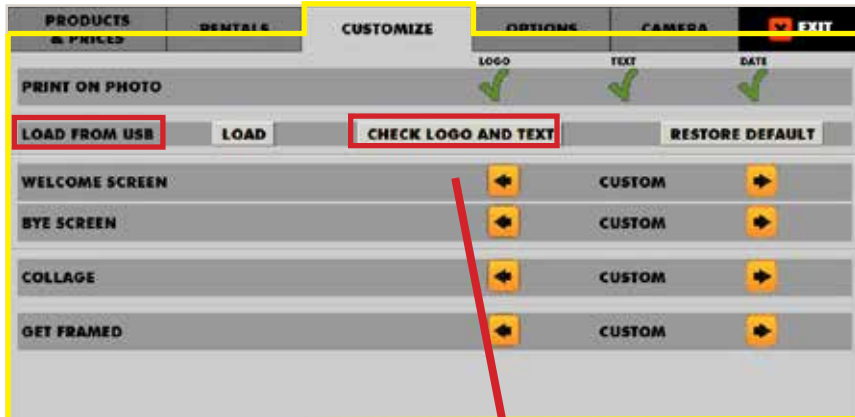

To upload your customizations insert the USB Stick in the pc, go to the SetupMenu/Customize, select "CUSTOM" option for all you want to custom (Welcome Screen, Bye Screen, Collage and Get Framed) and press the LOAD button.

If your USB is not detected, press EXIT and enter again to the Setup menu.

If you want to put on your own custom music on your PhotoBooth, you must enable  "MUSIC ON INTRO" in this section of setup menu. If you disable  this option the music will not play.

While uploading, this screen appears and then disappears only when the software has finished loading.

Check logo and text: You can check the logo and text that will appear in the photos. This screen disappears after a few seconds.

Check logo and text

9.2-UPLOAD TO THE CLOUD

9.2.1- GO TO MYPHOTOCODE

On the home screen of www.myphotocode.com it appears:

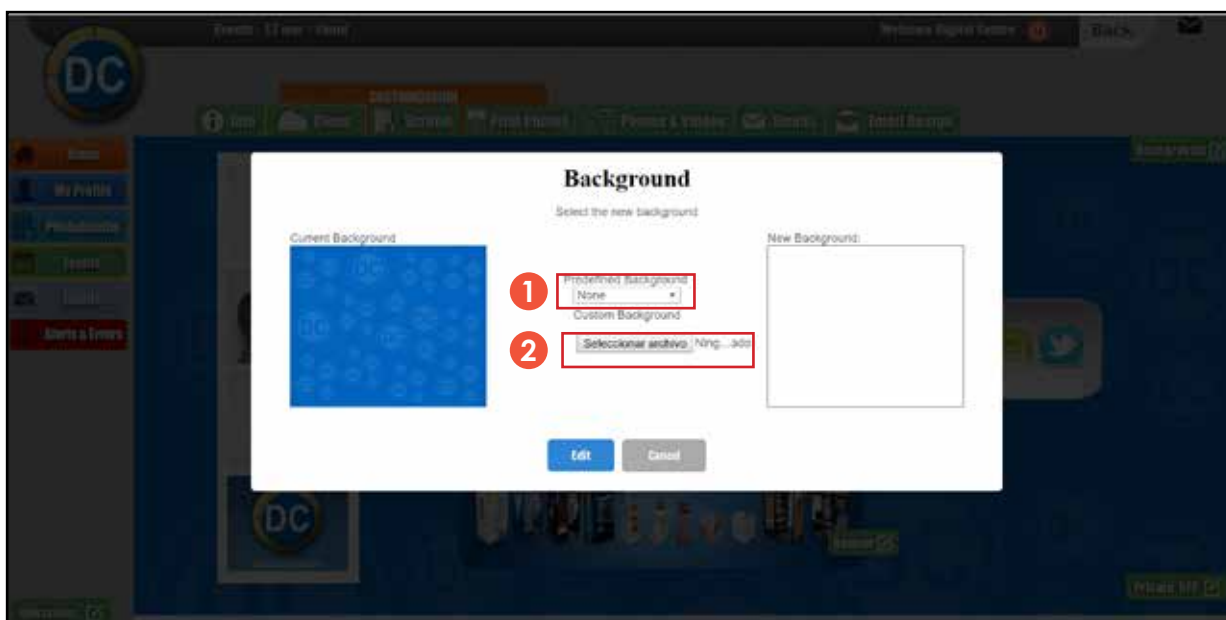

Log in to www.MyPhotoCode.com:

1 BACKGROUND

Select a **1** Predefined Background or **2** Upload your own. Once it's selected the one you want click on EDIT.

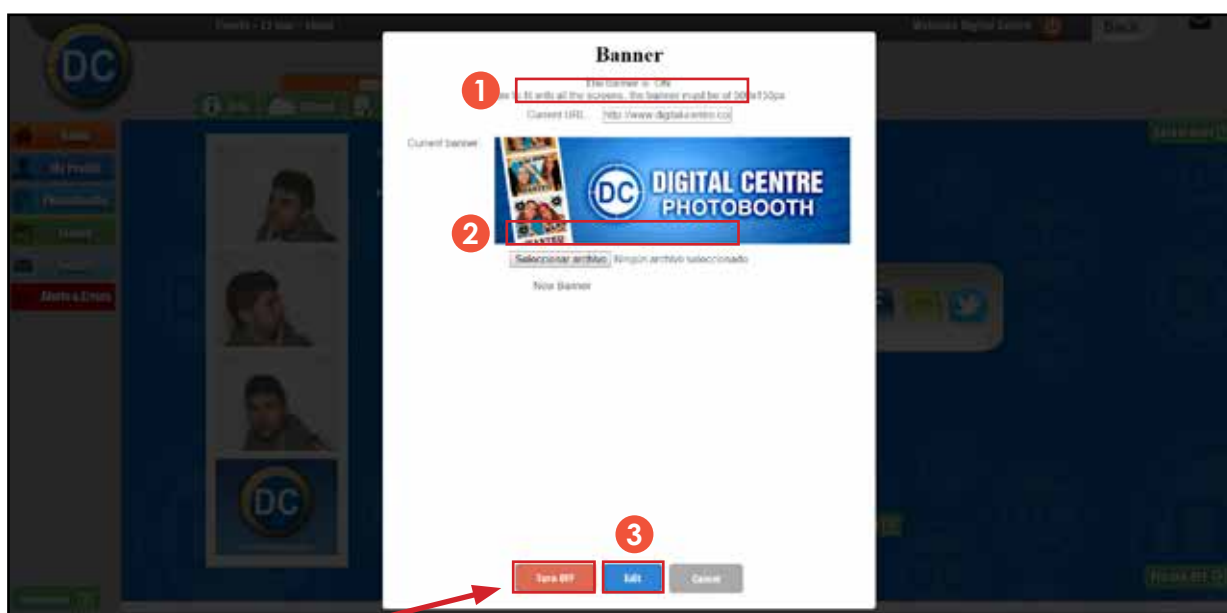

2 BANNER

You have the option to switch On an advertising banner that will link to your website.

- 1** Type the URL that you want (for example your website), don't forget to use http://.
- 2** Choose an image or gif to be the banner.
- 3** Click EDIT.

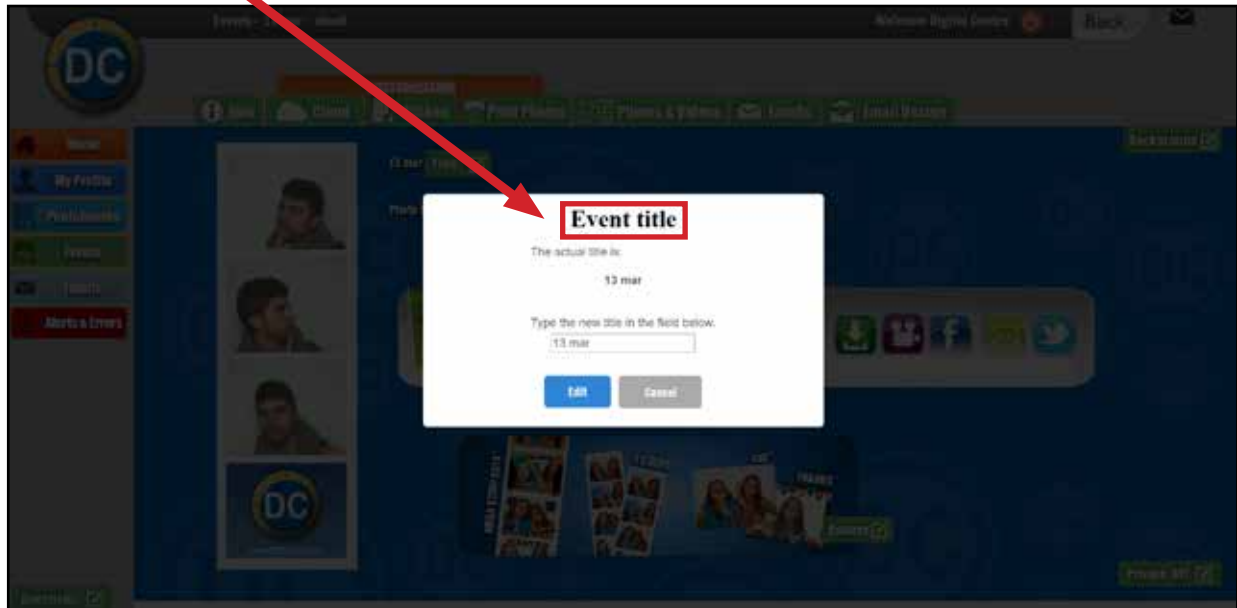

Click here to enable or disable the banner.

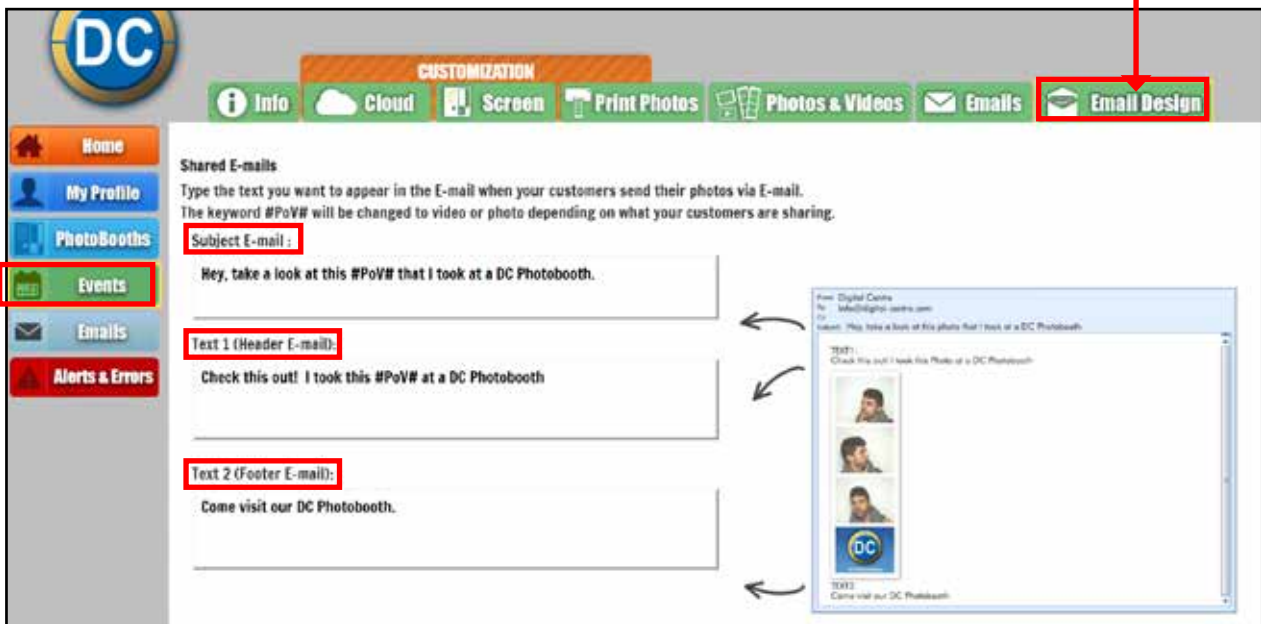

3 TITLE

Type the title you want and click on SAVE.

9.2.3- EMAIL DESIGN

Type the text you want to appear in the E-mail when your customers send their photos via E-mail.

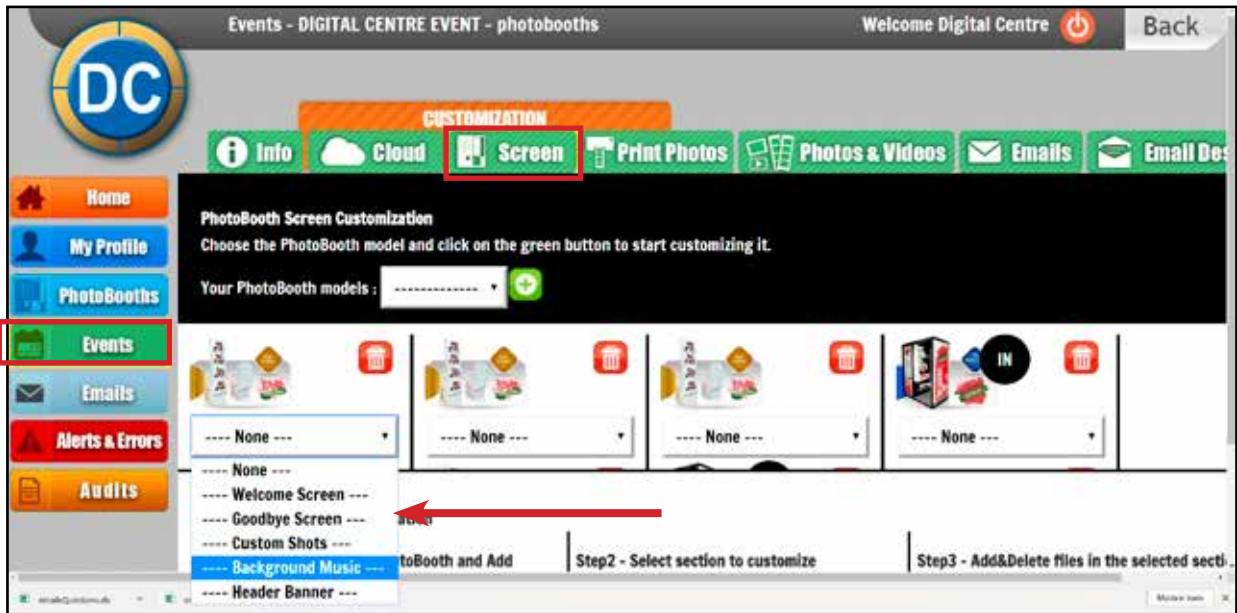

You can customize the following fields:

- Subject E-mail
- Text1 (Header E-mail)
- Text 2 (Footer E-mail)

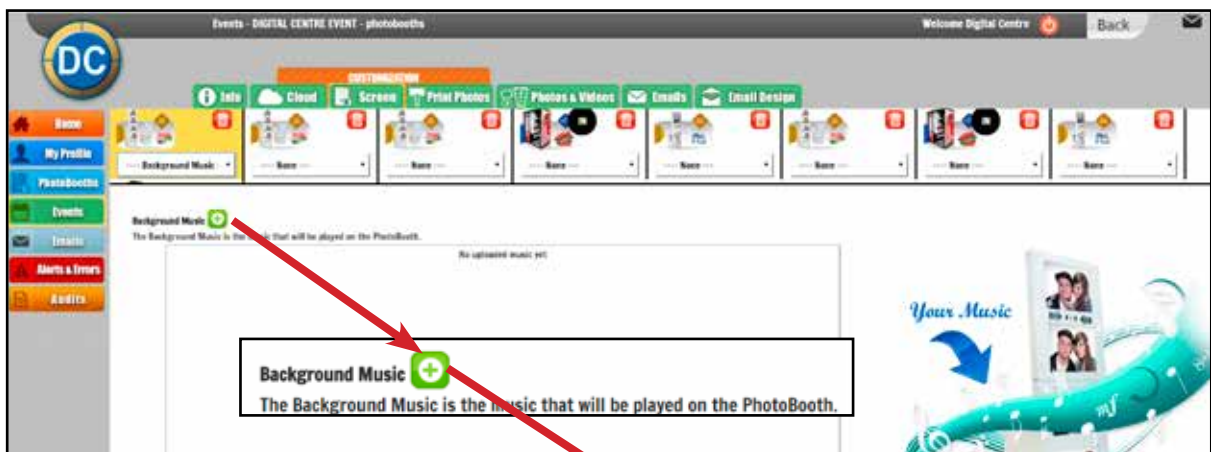

9.2.4- BACKGROUND MUSIC

To upload your custom music through the cloud, follow the steps below.

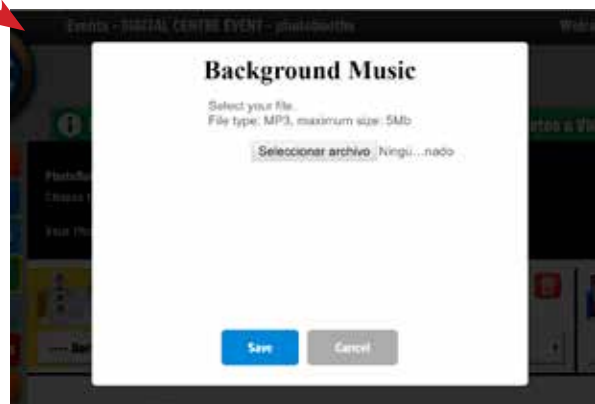

- 1 Choose a PB and click the drop-down menu to choose "Background music".

- 2 After you choose the "Background Music" option you have to click on this button 

- 3 This popup gives you the possibility to upload the file of music you want. You can not upload a file bigger than 5Mb.

10-SETTINGS

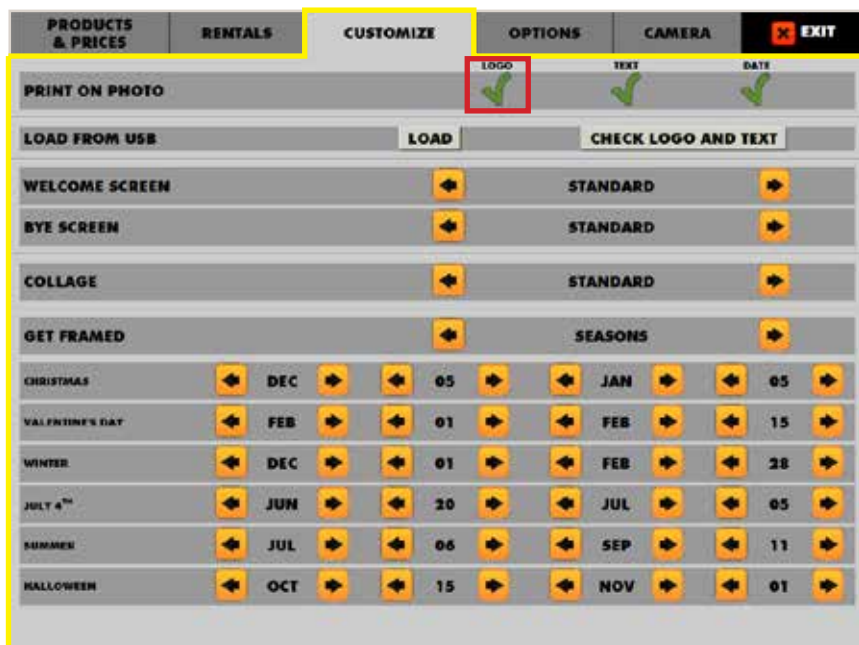

10.1- TO THE PHOTOBOOTH

MENU (Yellow Button): It enters setup Menu and allows options such as pricing, logos, camera adjustments, and features to be changed.

If you push the yellow button (MENU), the screen inside the PhotoBooth shows the following Setup menu:

Service control panel

LOGO

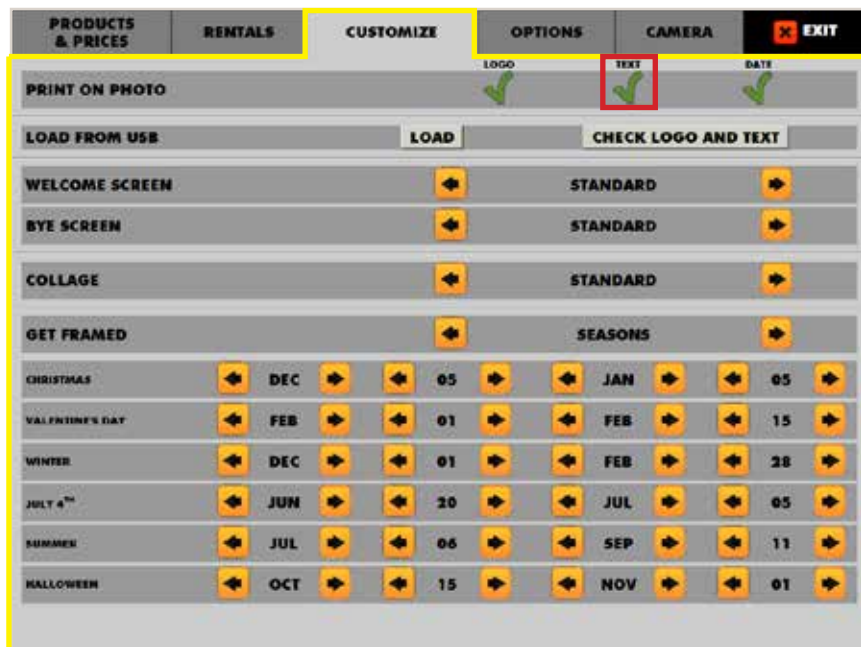

1-The menu is displayed on the screen.

2-Select customize and activate the logo with the green check mark. ✓

The logo will appear on the 3rd screen, if you can't see your logo it means that the upload is not correct.

3-Touch "X" EXIT. The PhotoBooth is ready to work.

***It's very important to follow the exact specifications to upload your logo.**

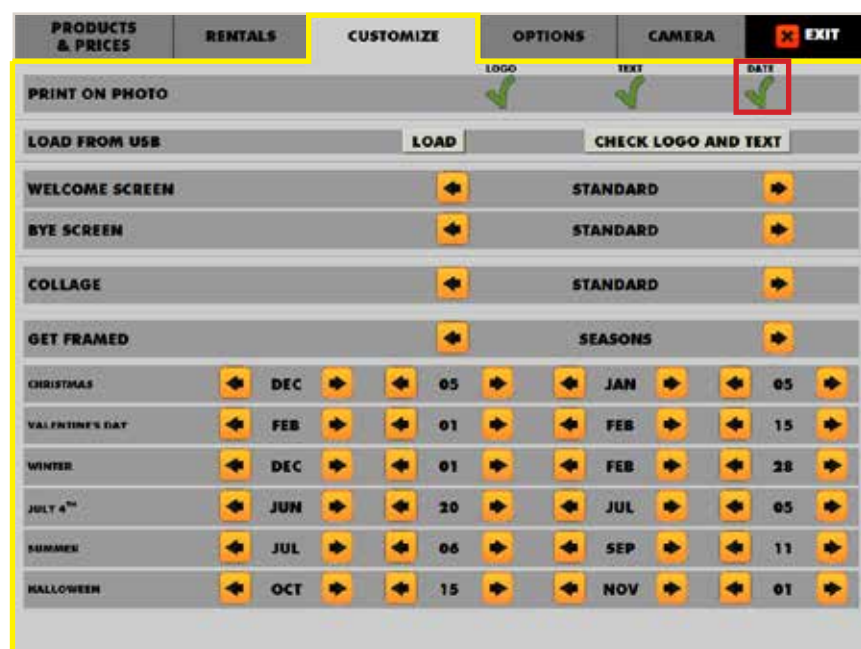

TEXT

1-The menu is displayed on the screen

2-Select customize and activate the text with the green check mark. ✓

The text will appear on the side of the printed photo frame with the information you want to give.

3-Touch "X" EXIT.
The PhotoBooth is ready to work.

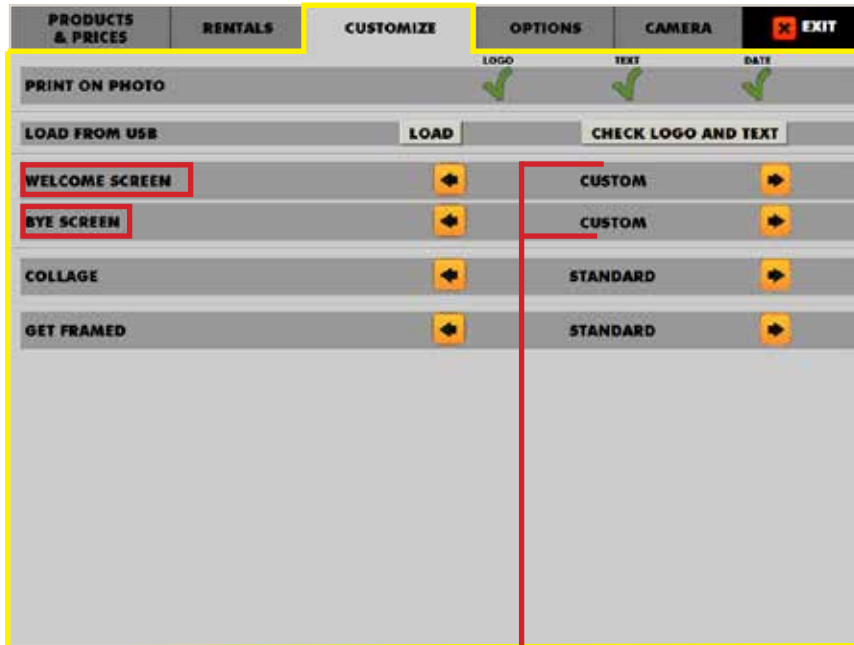

DATE

1-The menu is displayed on the screen

2-Select customize and activate the date the green check mark. ✓

The date will appear on the side of the printed photo frame before the text.

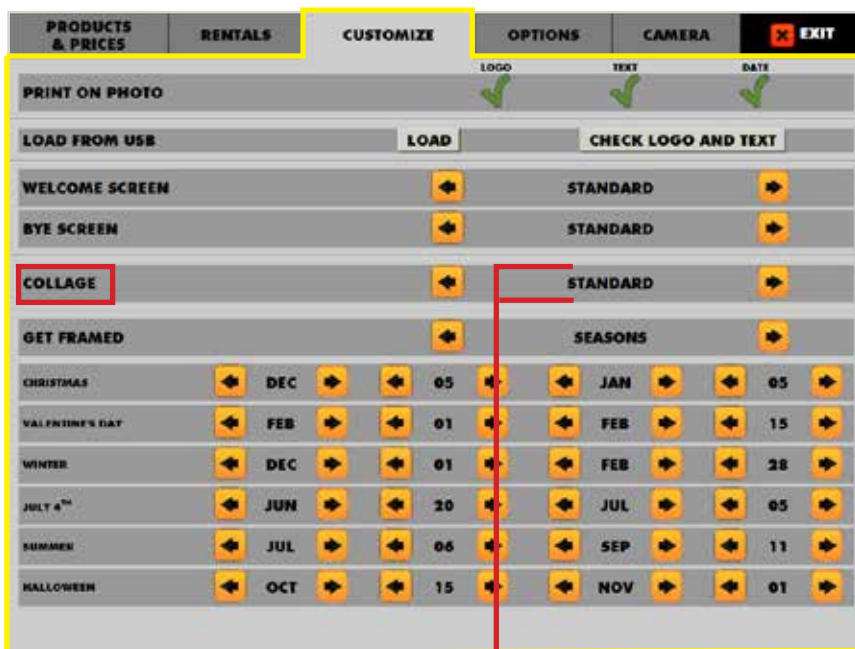

3-Touch "X" EXIT.
The PhotoBooth is ready to work.

OTHER OPTIONS
RANDOM/NONE/STANDARD

WELCOME/BYE

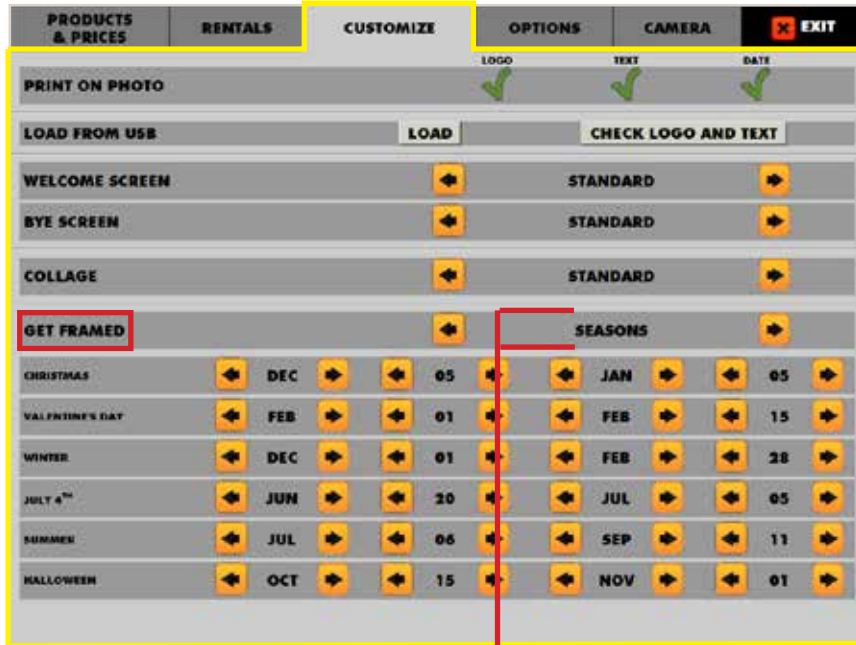

- 1-The menu is displayed on the screen
- 2-Enter to the customized menu and select Welcome/ Bye screen and **CUSTOM/ RANDOM/ NONE** or **STANDARD**:
 - **CUSTOM**: if you choose this option, you can upload your custom usb and customized WELCOME and BYE screens.
 - **RANDOM**: If you choose this option, the PotoBooth will make a random selection of welcome and bye screens and show you one.
 - **NONE**: if you choose this option, you don't upload your custom usb and you don't have any WELCOME or BYE screens.
 - **STANDARD**: if you choose this option, the PhotoBooths default welcome and bye screens will appear.
- 3-Touch "X" EXIT. The PhotoBooth is ready to work

OTHER OPTIONS
CUSTOM/STANDARD

COLLAGE

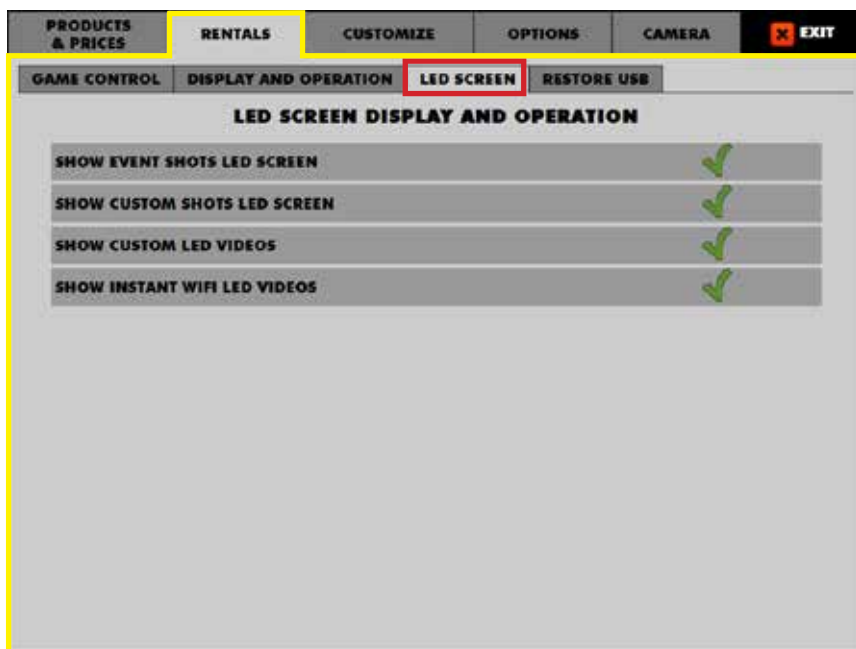

- 1-The menu is displayed on the screen
- 2-Enter to the customized menu and select GET FRAMES and CUSTOM/STANDARD:
 - **CUSTOM**: If you choose this option, you can upload your custom usb and the PhotoBooth shows your custom collage.
 - **STANDARD**: If you choose this option, you will have frames by default for your collage.
- 3-Touch "X" EXIT. The PhotoBooth is ready to work

OTHER OPTIONS
CUSTOM/STANDARD

FRAMES

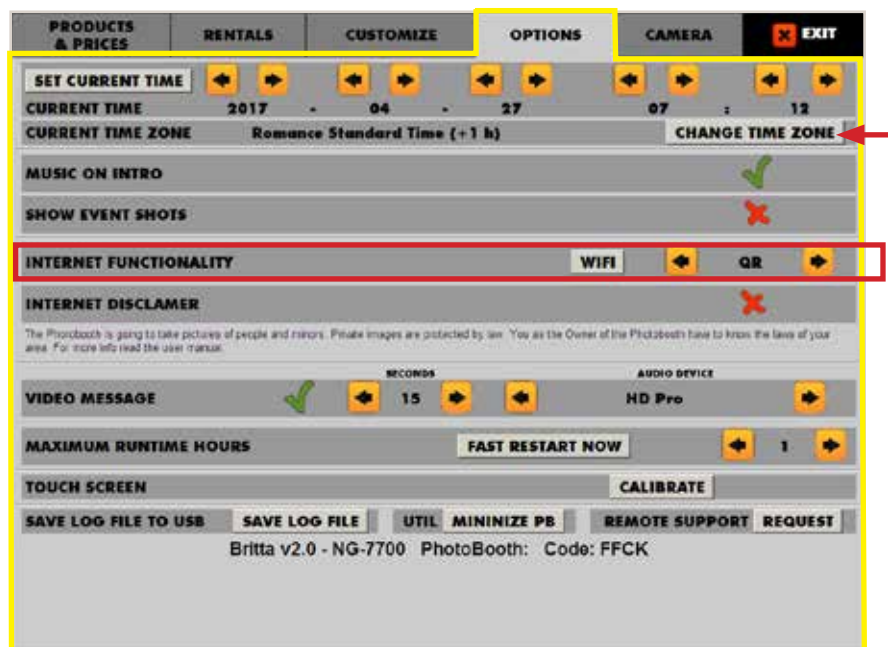

- 1-The menu is displayed on the screen
- 2-Enter to the customized menu and select GET FRAMES and CUSTOM / STANDARD or SEASONS:
 - **CUSTOM:** If you choose this option, you can upload your custom usb and the PhotoBooth will shows your custom frames.
 - **STANDARD:** If you choose this option, you will have frames by default for your photos.
 - **SEASONS:** In this option, you can choose custom frames for especial dates(Chistmas, Valentine’s day, winter, July 4th, summer, halloween) .
- 3-Touch “X” EXIT. The PhotoBooth is ready to work.

LEDSCREEN

In this section you enable and disable the display of items (**Event shots, Custom shots, Custom video, Instant video**) that can be displayed on the LED screen. See **5-LEDSCREEN** for more information.

10.2- TO THE CLOUD

You can enable/disable the products for each event.

YES ✓ / NO ✗

INTERNET FUNCTIONALITY:

- **WIFI:** if you want to connect your PhotoBooth via WIFI.
- **OFF:** deactivates the QR code and the side code.
- **QR:** activates the QR code and the side code.
- **CODE ONLY:** The QR code will not appear, only the side code.
- **UPLOAD ONLY:** Uploads the photos to the cloud, but they are not visible to the person who has rented the PhotoBooth via MyPhotoCode. Users can not view their photos in MyPhotoCode.com.

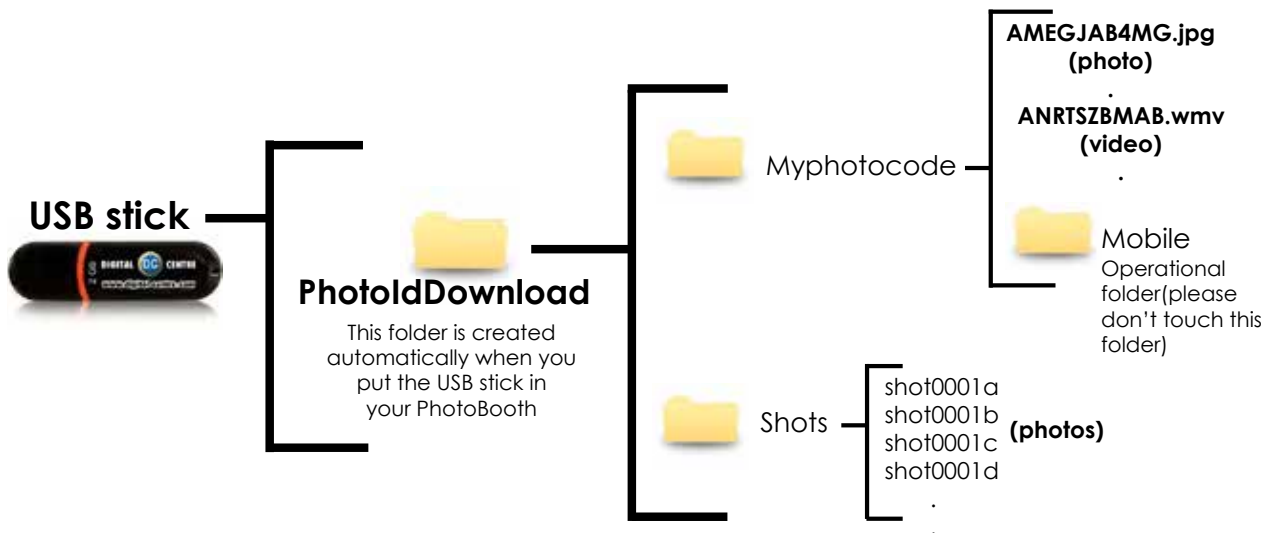

11-TROUBLESHOOTING

11.1- PROBLEMS UPLOADING THE LOGO

Possible causes:

1-USB is damaged

- Let's make a test to see if it works at the computer.
- Plug the USB STICK at the front of the PC (HP C2D), and go to Set Up Menu. Then exit the Menu.
- Take a picture by choosing the product you want.
- After the game, Remove the USB STICK.
- Plug the USB STICK in your PC or LapTop.
- Check the USB STICK contents in the **PhotoldDownload** folder.
- It should be 2 folders in the PhotoldDownload and your picture should be there.
- If your picture is not there, the USB STICK is not working properly.

It's recommended to use a USB drive with LED and 2GB of space.

USB STICK Off
(LED deactivated)

USB STICK On
(LED activated)

USB STICK Blinking
(LED activated)

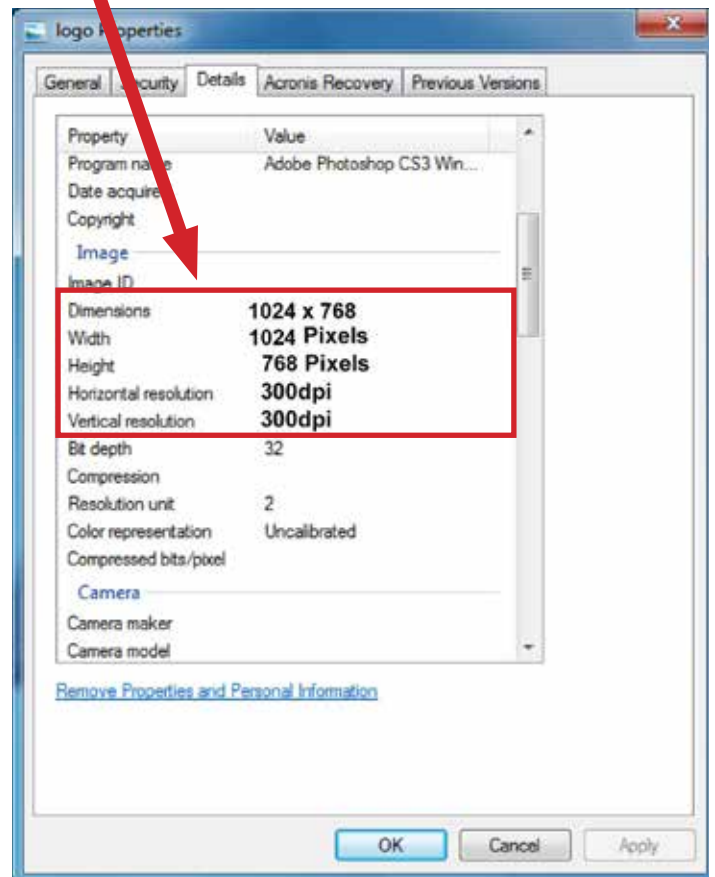

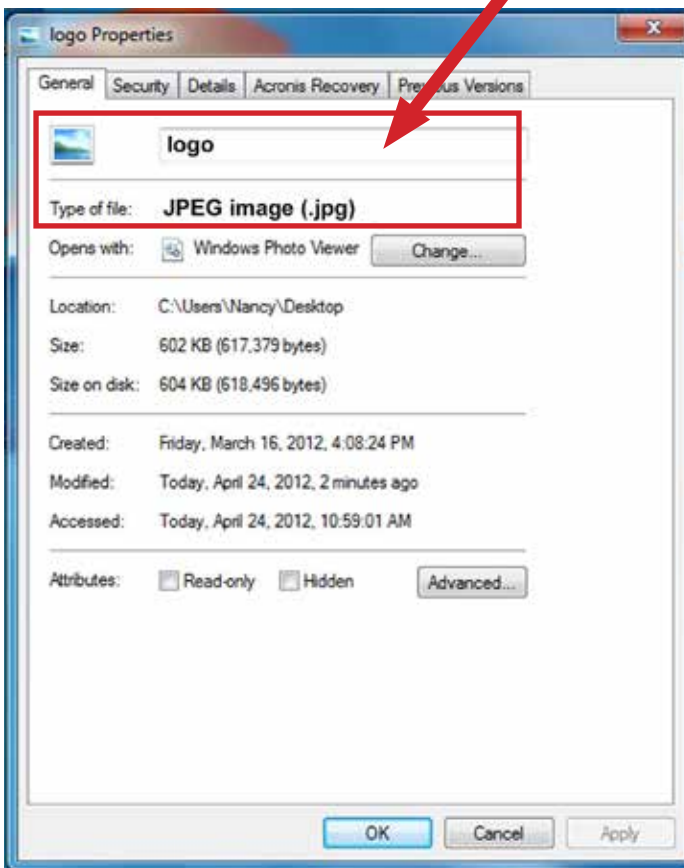

2-The logo specifications/characteristics are not correct

- Plug the USB Stick in your PC or Laptop.
- Locate the logo, Placed on the logo and click the right button on your computer mouse to open properties.
- The properties should be as follows.

Click the right button

· Check the logo specifications

Logo specifications:

Name: logo
Size: width: 1024 pixels
 height: 768 pixels
Resolution: 300dpi
Extension: JPG
Color mode: RGB

logo.jpg

If it doesnt work, consult a professional designer to assist you in changing the logo.

11.2- PROBLEMS WITH LEDSCREEN

CONNECTION WITH RASPBERRY

If the LED screen shows three stripes of red, green and blue (RGB) means no video signal comes. Maybe it's a connection error between sending board and Raspberry. You should check the connections and the SD card.

See **4.6 LEDSCREEN** for more information about connections.

LED screen shows RGB

CONNECTION BETWEEN SENDING BOARD AND RECEIVER CARD

If the LED screen is black maybe because there is a connection error between the sending board and receiver card. If the light of sending board and receiver cards are blinking it means are working properly. If the light of sending board and receiver cards are not blinking it means are not working properly and you have to check the connection between these two parts.

Page52: **it** that means **they** are not working

LED is black

- Red LED light
Power supply is connected
- Yellow blinking LED light
Data transmission is correct
- Green LED light
Data transmission is correct

Receiver card 2

Receiver card 1

CONNECTION WITH THE POWER SUPPLIES

As we have seen Raspberry, router, sending board and receiver cards have lights that indicate they are operating. If any of these lights are not lit, it could be that there is a problem with the power supply.

Receiver card

Router

Sending card

- Red LED light
Power supply is connected
- Green LED light
Data transmission is correct
