PASSPORT

ID Passport - Approved photos - passport - id card - driving

*Not all Photobooths have the same functionalities

PRINTING CENTER

Printing Centre is a Britta software feature that allows you to print personal photos of an event and anything the owner wants the simplest way possible. As a professional printing centre, the PhotoBooth can print all the photos stored in a USB in a few minutes

When connecting a USB device the PhotoBooth will allow the desired photos to be selected, and you can print as many copies as you want.

PROMOTIONS

The promotions pop up is a very valuable tool to keep patrons up to date with new seasonal designed frames or special promotions. This tool keeps the photo booth fresh and new every month for users who always find new products and very current topics, a host of designs adapted to each time of the year, especially for special dates as Valentine's Day, Christmas, Halloween, Summer, etc ...

This system increases sales significantly captivating the player from the beginning.
